SC upholds House tribunal in Malaben solon's ouster

By Peter J. Pappalardo
The Supreme Court on Monday upheld the decision of the House of Representatives to ouster a congressman from his seat in the House of Representatives. The court ruled in favor of the House of Representatives in a case brought by the congressman, who had challenged the House's decision to ouster him from his seat. The court's decision was a 5-4 majority, with the majority opinion written by Justice Kagan. The majority held that the House had the authority to ouster the congressman from his seat, and that the congressman's challenge to the House's decision was not a justiciable case or controversy. The dissenting opinion, written by Justice Scalia, argued that the House's decision to ouster the congressman was a violation of the Constitution, and that the court should have ruled in favor of the congressman.

 Lancer's terrible reputation

MANILA, Philippines — A Mitsubishi Lancer sedan was involved in a crash on a highway in the Philippines, killing a driver and a passenger. The car was seen driving recklessly, according to witnesses.

The incident occurred on a busy highway near a construction site. The Lancer was seen weaving between lanes and driving at high speed. It eventually lost control and rolled over, causing a major pile-up of vehicles.

Police are investigating the cause of the crash. They suspect that the driver's aggressive driving was a major factor. The car's condition after the crash was described as "terrible," with significant damage to the front end and the roof.

This is not the first time a Lancer has been involved in a serious accident. The car's reputation for being "aggressive" and "reckless" has spread among drivers in the region.

Chery stars for China's breakthrough in Dakar

Chery's participation in the Dakar Rally, the toughest off-road race in the world, marks a significant milestone for the Chinese automaker. The company's vehicles, including the Chery Tiggo and Chery QQ, have demonstrated exceptional performance and reliability in the harsh desert environment. This achievement not only showcases Chery's technological capabilities but also opens up new markets for its vehicles in Africa and South America. The rally, which has been held since 1979, is a grueling test of endurance for both drivers and their vehicles, covering over 9,000 kilometers across some of the most challenging terrain on Earth.

Chery's participation in the Dakar Rally marks a significant milestone for the Chinese automaker.

Heaven for collectible classic and exotic cars

The Chery Classic Car Museum, located in the heart of the city, is a haven for collectors and enthusiasts of vintage automobiles. The museum houses a vast collection of classic cars from various eras, including the 1920s, 1930s, and 1950s. Visitors can admire the intricate details of these vehicles, from their sleek designs to their powerful engines. The museum also features a collection of exotic cars, including Ferraris, Lamborghinis, and Porsches, which are displayed in a separate section. The Chery Classic Car Museum is a must-visit destination for anyone interested in the history of automotive design and engineering.

Low returns feared

Investors are concerned about the low returns on their investments in the Chery stock market. The company's stock price has been volatile, with significant fluctuations in value. This has led to a loss of confidence among investors, who are now wary of putting their money into Chery shares. The company's financial performance has also been a source of concern, with some analysts predicting a decline in profits. Despite these challenges, Chery remains committed to its growth strategy and is working to improve its financial performance. The company is also exploring new investment opportunities and is confident that it will achieve long-term success.

A Kids love to help, but they often lack the confidence or the right tools. Start with simple tasks like washing vegetables or stirring. Use colorful aprons and fun kitchen tools to make it more appealing.
